

MAHILA HELP DESK

Powering HER Journey

A Guide to Government Welfare Schemes for Women

Government Schemes • Beneficiaries • Mahila Help Desk

HOW THIS HANDBOOK HELPS YOU

This handbook has been prepared by the Women Help Desk of The Women Education and Empowerment Trust (TWEET) in collaboration with Nagrik Vikas Kendra as a ready reference for women-centric government welfare schemes.

Women today are at the heart of social and economic transformation, and access to the right support systems is critical in enabling their journey toward empowerment. Recognizing this need, the booklet brings together, in a single compilation, state-wise details of government initiatives designed to uplift, protect, and empower women across India.

From financial assistance and livelihood opportunities to health care, education, housing, and social security, the handbook covers a wide spectrum of schemes. Each entry provides a clear outline of the scheme, required documents, and the official website or portal for further information and application.

This resource handbook has been designed to serve NGOs, community leaders, and women beneficiaries, ensuring that information about welfare programs is easily accessible and actionable. We hope this compilation becomes a practical tool in guiding women and organizations toward better utilization of available government support, ultimately contributing to stronger, self-reliant communities.

MAHILA HELP DESK

The Mahila Help Desk serves as a pivotal resource, providing comprehensive information on various government schemes, facilitating applications, elucidating the intricacies of the justice delivery system, and aiding in the registration of complaints for victims of crimes against women.

NAGRIK VIKAS KENDRA

Nagrik Vikas Kendra (NVK), also known as the Government Scheme Facilitation Centre under the Human Welfare Foundation, serves as a vital bridge between government departments and marginalized communities, ensuring access to a wide range of welfare schemes offered by both state and central governments. NVKs not only raise awareness about these initiatives but also provide end-to-end support, guiding beneficiaries through every stage of the process until they receive the final benefits in tangible form. At present, 31 NVKs are operational across 12 states, empowering communities by facilitating their rightful entitlements.
